Name of the Foundation

“Fundraising Foundation Embassy of the Baltic Sea”

Purpose of the Foundation

The purpose of the foundation is to:

1. Promote the recognition of the Baltic Sea's rights to existence, health, development, and the maintenance of its natural functions.
2. Represent the Baltic Sea and its more-than-human inhabitants in relevant contexts.
3. Serve as a laboratory of care for dialogue and collaboration that integrates human and ecological well-being.
4. Inspire and support initiatives that strengthen the relationships between people and nature in the Baltic Sea.

The Baltic Sea is defined as the entire watershed, from the mountains to the depths of the sea. “More-than-human” refers to nature that includes but also transcends humanity (Abram, 1997).

Our society faces many challenges, and we are convinced that long-term work through a foundation is a powerful way to contribute to positive change. By creating an independent and enduring institution, we aim to ensure that resources are managed responsibly and purposefully over time. We invite individuals and organizations to take part in supporting this foundation, either through financial contributions, voluntary work, or strategic support.

Please feel free to contact us with questions or ideas regarding collaborations or contributions.
